## Heavy Duty Tub & Mat Cleaner Instructions

Rapidly dissolves and removes soap film, hard water deposits, scale, lime and residue that build up and are hard to remove from surfaces like Fiberglass and Tile. It clings & cleans: Super Fast

For initial use on showers and heavy soap build-up, first carefully scrape HEAVY soap film from below soap dishes. Next, using your rubber gloves and scrub pad, gently spread a heavy, even film of product over the entire surface full strength. Let set for 15 min (or even longer). and rinse thoroughly with hot or warm water to remove product.

For GENERAL CLEANING- the product can be diluted 50%-100% with warm water. Wearing your rubber gloves, apply the diluted product with a sponge. Let set 10min and rinse thoroughly with warm or hot water to remove product.

NOTE: This product may damage shower door rails or other anodized metals. Avoid shower rails. Will not harm chrome plated surfaces. Do not place container on Formica, or any other porous surfaces. For very old surfaces being cleaned, test a small, inconspicuous area to determine if glaze or enamel surface is removed. If so, discontinue use immediately.

WARNING!!! Contains Phosphoric Acid. Irritant to eyes and mucous membranes. Do not mix with chlorine bleach.

First Aid: SKIN: Wash with soap and water. If irritation persists, call physician. EYES: Flush with water for 15min. Call physician. INGESTION: Drink large amounts of water followed by milk of magnesia. Call Physician. INHALATION: Get person to fresh air. If unconscious, call physician. Keep out of reach of children.

Container Disposal: Rinse 3 times with water. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill (dump), or by incineration or, if allowed by state and local authorities, by burning. If burned, stay away from smoke.

*Wet Doesn't Mean Slippery*
